

Signing, Lighting and Guarding

Number of Delegates:	4 - 12
Course Duration:	1 day
Course Outcome:	Construction Skills People Certificate

A Skills People Group Company

Introduction

The Signing, Lighting and Guarding training course is for operatives who as part of their duties have to set up the temporary road signs and traffic lights on the roads and highways. The course will give the delegate with a thorough understanding of the health and safety issues and their legal responsibilities in the role of erecting the signs lighting and guarding as well as the physical & practical considerations that need to be considered when setting up temporary roadworks on the highways.

Aims & Objectives

The Signing, Lighting and Guarding training course is taken by an experienced street works trainer and the course aims to provide delegates at both operative and supervisor levels with the knowledge and skill set necessary to conduct their tasks when Signing Lighting & Guarding in a safe, legal and proficient manner in keeping with the New Roads and Street Works Act of 1991, in order to protect pedestrians, road users and themselves. By the conclusion of the course delegates will be able identify and use the correct traffic control measures. Correctly use the related equipment and erect and dismantle signing lighting and guarding in line with the current codes of practice.

Course Delivery

This course is delivered using both classroom and practical demonstrations, with delegates being assessed by verbal questioning and the assessment of practical tests. Supervisors attending the course will be asked to provide written assessments of practical demonstrations they have observed. A group of candidates may only contain operatives but in order for supervisors to be trained at least two operatives must be present on the course in order that they can be assessed supervising the Signing, Lighting & Guarding practical activities delivered during the course.

Location

This course can be delivered at our own training centre or your own location subject to you having the correct facilities and equipment. For more details please contact us for more information.

Delegate Eligibility / Entry Requirements

Candidates attending this course will need to have a good understanding of written and spoken English and be physically fit and healthy.

Certification

Candidates successfully passing this course will be awarded a Construction Skills People Certificate of Competence.
