

### Portable Power Tool Safety Training

Number of Delegates:	1 - 10
Course Duration:	1 Day
Course Outcome:	Certificate

#### Introduction

This programme is designed for managers, supervisors and operatives who use, or oversee the use of, portable power tools in a work environment.

#### Aims & Objectives

This course aims to train delegates in the skills and knowledge needed to achieve standards of competency to use portable safety tools safely and correctly. On completion of this course, delegates will have a good understanding of the Health and Safety requirements, hazards that may arise and precautions to be taken.

#### Course Delivery

This programme is delivered using a blend of classroom-based tutorials and practical activities.

#### Location

Courses are available at training centres nationwide. This course can also be delivered on your premises subject to minimum delegate numbers and suitability of the venue. Please contact us for information.

#### Certification

Construction Skills People accredited certificate.

#### Delegate Eligibility/Entry Requirements

It is important that all delegates have a good understanding of spoken and written English.

A Skills People Group Company
