

### NEBOSH Construction Certificate

Number of Delegates:	10 - 20
Course Duration:	14 Days
Course Outcome:	Certificate

#### Introduction

The NEBOSH National Certificate is the must-have qualification for safety and health practitioners. Its practical approach promotes the application of the knowledge acquired on the course to problem-solving within the workplace.

The courses are conducted quarterly and can be taken in many languages, tailored to suit your personal industry requirements. The qualification is specifically referred to as a key competence in the Construction (Design and Management) Regulations 2015.

#### Who should attend?

Supervisors, managers and those with a role under the Construction Design and Management regulations 2015 within the construction industry.

#### Assessment

Classroom-based tutorials plus personal study hours.

#### Certification

NEBOSH Accredited Certificate.

#### Location

Courses are available at training centres nationwide. This course can also be delivered on your premises subject to minimum delegate numbers and suitability of the venue. Please contact us for information.

#### Delegate Eligibility

It is important that all delegates have a good understanding of spoken and written English.

#### IMPORTANT

If you have already passed the NEBOSH General Certificate within the last 5 years you can take Unit NCC1 and Exam NCC2 over 3 days to achieve this qualification.

A Skills People Group Company
