

First Aid Automated External Defibrillators (AED)

Number of Delegates:	1 - 15
Course Duration:	2 hours
Course Outcome:	Certificate

Introduction

This course is designed for any individual in a workplace who requires training in the use of an automated external defibrillator (AED) machine.

Aims & Objectives

The aim of this course is to train delegates in the correct use of AED machines as part of the CPR process. Delegates will learn how to assess incidents, how to record information and how to handover to the emergency services, as well as how to correctly and safely use the AED machines.

Course Delivery

This course is delivered through a combination of theory and practical exercises.

Location

This course can be delivered on your premises or at a location suitable to you.

Certification

AED certificate, valid for 1 year.

Delegate Eligibility/Entry Requirements

Delegates must already hold a current first aid certificate to be eligible for this course.

It is important that all delegates have a good understanding of spoken and written English.

Additional Information

Delegates must be physically fit and able to carry out CPR.
