

A09 Forward Tipping Dumper - Novice

| | |
|----------------------|---------------|
| Number of Delegates: | 1 – 4 |
| Course Duration: | 3 Days |
| Course Outcome: | CPCS Red Card |

Introduction

This course is designed for candidates who have less than 12 months on-site experience of operating a forward tipping dumper. It aims to provide delegates with a thorough programme of instructional hands-on tuition of how to safely operate this category of plant.

Aims & Objectives

To provide the candidate with a thorough understanding of both the CPCS theory test and the CPCS practical test that comprise the CPCS technical test for category A09 Forward Tipping Dumper. Candidates will receive guidance on how to answer the theory test questions and revision materials that will enable them to complete the tests with confidence.

Course Delivery

This course will have a large element of practical hands-on training. The delegate will also attend classroom-based training to prepare them for the CPCS theory test. All delegates are provided with and are encouraged to read the CPCS theory test questions and revision notes where provided.

Location

Available at a number of training centres across the UK.

Certification

Successful candidates will achieve a Red CPCS Trained Operator Card valid for two years. During this two year period candidates will need to achieve the relevant plant NVQ that will enable them to upgrade their Red Card to a Blue CPCS Competent Operator Card.

Delegate Eligibility/Entry Requirements

It is important that all delegates have a good understanding of spoken and written English and have the operating experience as described in the 'Introduction' of this course overview. Candidates must have passed the CSCS H&S touch screen test within two years of taking the CPCS technical test.

Additional Information

Candidates should bring appropriate PPE and a passport photo.
