

Asbestos Awareness

Number of Delegates:	1 - 15
Course Duration:	½ day
Course Outcome:	Certificate

Introduction

The course is designed for personnel that undertake maintenance, refurbishment or building work and will appeal to general maintenance staff, electricians, plumbers, gas fitters, demolition works, construction workers, heating and ventilations engineers, burglar and fire alarm installers, building surveyors and other such professionals.

Aims & Objectives

This programme is fully compliant with Regulation 10 of the Control of Asbestos Regulations (CAR), ensuring that delegates are made aware of the potential dangers involved with asbestos and the procedures they must follow in the event that they are working in the vicinity of asbestos containing materials.

Course Delivery

This course is delivered through classroom based tutorials and discussions.

Location

This course can be delivered on your premises or at a location suitable to you.

Certification

Construction Skills People accredited certificate.

Delegate Eligibility/Entry Requirements

It is important that all delegates have a good understanding of spoken and written English.

Additional Information

The course can be developed and adapted to refer to or include specific areas of the client's operations, particularly focusing on issues that are present and utilizing the client's own asbestos policies and procedures.

For training held at your own locations please ensure you make available a suitable room, which can comfortably seat the number of delegates attending. We will also require a 240v power supply and you will be obliged to supply refreshment facilities for the delegates.

A Skills People Group Company
