

Cable Avoidance Tools (CAT)

Number of Delegates:	1 - 6
Course Duration:	1 Day
Course Outcome:	Certificate

Introduction

This programme is designed for operatives and supervisors who have to locate underground apparatus on the roadways and highways.

Aim & Objectives

This course aims to provide delegates with the skills and knowledge to carry out cable avoidance work whilst considering the safety of themselves and others.

Course Delivery

This course involves a high proportion of discussion and simulated assessments supplemented with video and classroom-based tutorials and progress tests.

Location

Courses are available at training centres nationwide. This course can also be delivered on your premises subject to minimum delegate numbers and suitability of the venue. Please contact us for information.

Delegate Eligibility/Entry Requirements

It is important that all candidates who attend this course have a good understanding of spoken and written English.

Certification

Successful delegates will receive a Construction Skills People accredited certificate or NPORS Card/Certificate*.

** If NPORS accreditation is required delegates will need to provide a passport photograph at the start of the course. NPORS registration is £35.00 per person.*

A Skills People Group Company

COURSE PROGRAMME

The Cable Avoidance Tools course covers the following:

- Basic principles of location and avoidance of underground services
- Hazard identification and the risk associated with them
- Reading and interpreting site plans
- Practical use of equipment

By the end of the course delegates will be able to:

- Identify potential risks to themselves and others
- Read and understand site plans
- Operate cable avoidance tools in order to avoid or locate underground apparatus
