

CPCS Crane Supervisor – A62

Number of Delegates:	6 - 12
Course Duration:	4 Days
Course Outcome:	CPCS Trained Operator Card

A Skills People Group Company

Introduction

This intensive programme is for managers and supervisors who are responsible for supervising lifting operations in a construction or industrial environment. Experienced slinger signallers who are looking to become crane supervisors may also attend this course.

Aims & Objectives

This course will inform delegates how to undertake the duties of a crane supervisor as instructed by the appointed person. Delegates will learn how to safely supervise a lift while complying with current regulations, legislation and codes of practice. Delegates will be advised of the necessary managerial and practical consideration in supervising lifting operations and will be given the opportunity to put this information into practice during simulated exercises in the training room. On completion of the course delegates will have sufficient knowledge and information to safely supervise lifting operations for mobile crane on a busy construction site.

This course aims to prepare delegates for a CPCS A62 Assessment.

Course Delivery

This course involves a high proportion of hands-on demonstrations and practical exercises, supplemented with classroom-based tutorials and pre and post course assessments.

Location

Courses are available at training centres nationwide. This course can also be delivered on your premises subject to minimum delegate numbers and suitability of the venue. Please contact us for information.

Delegate Eligibility/Entry Requirements

It is important that all candidates who attend this course have a good understanding of spoken and written English. Delegates attending this course should be physically and mentally fit to withstand the rigours of training.

Certification

Successful delegates will achieve a red CPCS trained operator card that is valid for 2 years. During this 2-year period, delegates will need to achieve a L3 Diploma NVQ in Controlling Lifting Operations – Supervising. This will enable delegates to upgrade their red card to a blue CPCS competent card.

Additional Information

The content of this course includes awareness of periodic examinations of equipment. Additional training relating to this subject may be of benefit to delegates and further information is available upon request.

COURSE PROGRAMME

The CPCS Crane Supervisor course covers the following:

- Legislation, regulations and codes of practice relating to lifting duties
- Safe systems of work (including risk assessments and method statements)
